**5. Write a Pandas program to create a bar plot of the trading volume of Alphabet Inc. stock between two specific dates.**

**AIM:** To Write a Pandas program to create a bar plot of the trading volume of Alphabet Inc. stock between two specific dates.

**PROCEDURE:**

- Import the Pandas and Matplotlib libraries.
- Read the `alphabet_volume.csv` file.
- Convert the `Date` column into datetime format.
- Filter the records between the specified dates.
- Create a bar plot using the `Date` and `Volume` columns.
- Add the chart title, axis labels, and grid.
- Display the bar chart.

**OUTPUT:**

**RESULT:** Thus, the Pandas program to create a bar plot of the trading volume of Alphabet Inc. stock between two specific dates was executed successfully, and the required graph was obtained.

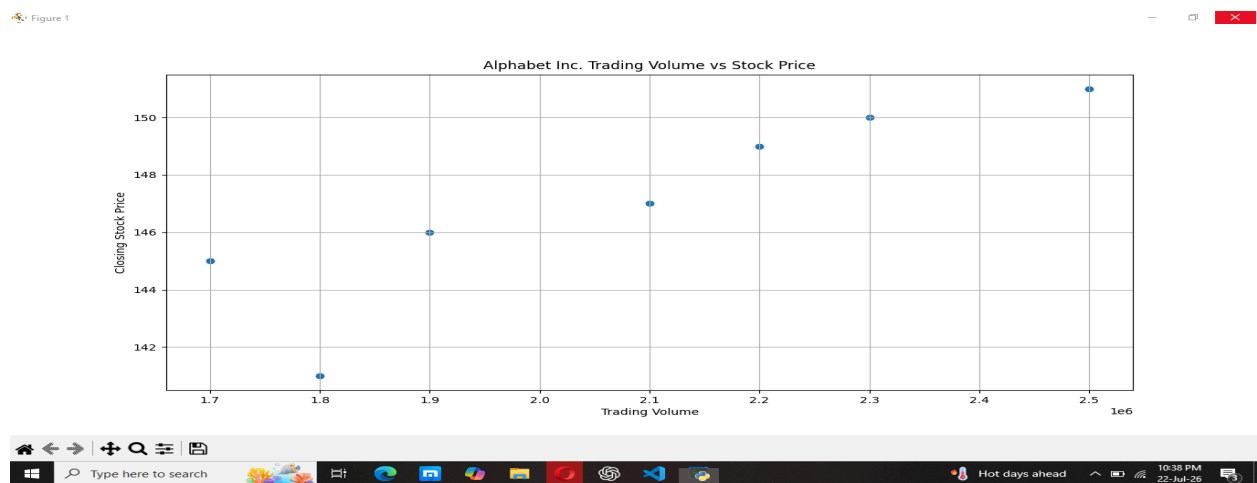

**6. Write a Pandas program to create a scatter plot of the trading volume/stock prices of Alphabet Inc. stock between two specific dates.**

**AIM:** To Write a Pandas program to create a scatter plot of the trading volume/stock prices of Alphabet Inc. stock between two specific dates.

**PROCEDURE:**

- Import the Pandas and Matplotlib libraries.
- Read the `alphabet_scatter.csv` file.
- Convert the `Date` column into datetime format.
- Filter the data between the specified dates.
- Create a scatter plot using the `Volume` and `Close` columns.
- Add the graph title, axis labels, and grid.
- Display the scatter plot.

**OUTPUT:**

**RESULT:** Thus, the Pandas program to create a scatter plot of the trading volume and stock prices of Alphabet Inc. stock between two specific dates was executed successfully, and the required graph was obtained.
